

Aquaculture Tubs

The future of fish, the future of farming...

SPECIAL FEATURES

These poly aquaculture tanks are all made from food grade virgin poly with smooth internal surfaces - no loose fibres or harmful substances for either your children, fish or the farmer. They are light weight and resilient and easily relocated.

- Swimming Pools
- Live Fish Transport Tanks
- Algae Growth Tanks
- Dosing Tanks
- Tubs and Buckets
- Some Sizes Available with Sloping Base and Support Stand
